**“Excellence is doing ordinary things, extraordinarily”**

**- John William Gardner.**

It is very natural for humans to excel in whatever they do, and it is equally essential that such excellent works be awarded, recognized and motivated. Such awards act as the motivational force for all, for those who have excelled in going as step ahead and for the rest it is as an aim.

I am much pleased to learn that the **Council of State Industrial Development & Investment Corporations of India** is organizing “**National Award Function**” in **February 2017** to felicitate those who have excelled in Industrial Development. My heartiest best wishes to the organizers for a successful event and congratulations all the Awardees for their contribution.

**(Vijay Rupani)**
