Message...

It is a great pleasure to know that the Council of State Industrial Development and Investment Corporations of India has been publishing a bi-monthly journal for establishing direct link with its member corporations and the financial institutions for the development and financing of Small, Medium and Large Industrial sectors.

Our Country is the fastest growing economy in the world with huge natural resource and manpower. Development of any economy is linked to the growth of Industries both at micro and macro level requiring capital. Removal of procedural and other hurdles in getting finance for entrepreneurs is the need of the hour for development of Industries which generates huge employment opportunities.

I congratulate COSIDICI for bringing out the journal for the benefit of trade and Industry and I am hopeful that the information being provided by them in their magazine will go a long way in helping towards the growth of industrial sector in our Country.
