It gives me immense pleasure to know the Council of State Industrial Development & Investment Corporations of India, or COSIDICI, is bringing out a journal, as has been the tradition, which would serve as a helpbook for those planning to set up an industrial unit in the small, medium or large sector anywhere in the country.

I am certain this initiative of COSIDICI, which has been rendering yeoman services for more than four decades now, will be of immense help for the probable investors to zero down on the most-favorable sectors and locations that would secure their investments along with a guarantee of adequate return from it.

I would like to take this opportunity to appeal to the probable investors from all over the country and abroad to consider Assam as their investment destination. The state of general peace and harmony, coupled with the initiatives the state government has made Assam a business - friendly environment.

With these words, I extend my best wishes to everyone associated with COSIDICI for this as well as for all their future endeavors.
