*Message...*

India is one of the fastest growing economies in the world, In this growth path, various financial and industrial development institutions established for promotion and progress of industries have been playing a significant role. Contributions made by these intuitions and its Apex body COSIDICI in upbringng the Indian economy to the present state is commendable.

There in is still long way to travel in the industrial growth path. Therefore, I request all these institutions to come up with many more initiatives to achieve Atmanirbhar Bharat. It is of utmost importance the reduce the Imports and increase the Exports, which is a biggest challenge ahead for most of the Indian firms.

I am thankful to COSIDICI for giving me this opportunity at this particular point of time as this year we are celebrating Azadi Ka Amrut Mahotsav COSIDICI, all its institutions, all the readers of "COSIDICI Courier" a happy and progressive new year 2022.
