Gujarati's are known across the globe for their entrepreneurial temperament. With consistent efforts initiated by **Shree Narendrabhai Modi** like Vibrant Summit, SEZ, SIR and Industrial Friendly Policy, Gujarat has earned the reputation of most favourable destination for business.

In this context it is a matter of pleasure to know about the activities of **COSIDICI (Council of State Industrial Development & Investment Corporations of India)** like promotion, development and financing small, medium and large industrial sector. It is good to know that COSIDICI is contributing towards developing infrastructure facilities like industrial parks, housing complexes for industrials workers and setting up SEZ in certain states.

The activities of providing training to officers and useful journal **COSIDICI COURIER** to Govt., financial institutions along with university libraries and industry associations deserve sincere appreciation. My heartiest congratulations for magazine '**COSIDICI COURIER**' and best wishes for its success.
