MESSAGE

Functioning and efficient operations of state level financial institutions in the various states, have the major role in development of better industrial infrastructure amenities. This helps in attracting investment which leads to consistent growth of industry and large ventures.

*I am glad to note that **COSIDICI**, with its aim to provide common platform for financial investment in development of infrastructure facilities is going to publish its bi-monthly journal **COSIDICI COURIER** as an useful guide to potential investors.*

I wish every success for the publication

(Narendra Modi)
